Insurance Commissioner

STATE PRINTING PLANT OLYMPIA, WASHINGTON

RICHARD G. (DICK) MARQUARDT
STATE INSURANCE COMMISSIONER
AND STATE FIRE MARSHAL

STATE OF WASHINGTON

DAVID H. RODGERS
CHIEF DEPUTY

REPLY TO:
OLYMPIA OFFICE
INSURANCE BUILDING
OLYMPIA, WASHINGTON 98504
753-7300, AREA CODE 206

OFFICE OF

INSURANCE COMMISSIONER

To Members of the Washington State Legislature

It is a pleasure to present to you the Eighty-seventh Annual Report of the Washington State Insurance Commissioner. This document covers official transactions and significant developments in the business of insurance here as required by RCW 48.02.170.

The bulk of the activities and transactions of the state Insurance Commissioner's Office for 1980 are outlined in the charts, tables, and recapitulations on pages 1 through 136 of this report.

The activities of the Fire Marshal Division are generally outlined in narrative form on pages 9 through 15 of this report.

This report is the first using a new computerized data base and record keeping system provided through the National Association of Insurance Commissioners (NAIC) office. We think this is a more cost effective way to present this information. Company data is for the period from January 1980 through December 1980.

Since this is the first annual report using the new format, I would appreciate your comments regarding the change.

Sincerely,

Dick Marquardt

Dick Marquardt
Insurance Commissioner
and State Fire Marshal

Annual Report of the Office of Insurance Commissioner

Covering Events and Activities From

January 1, 1980 through December 31, 1980

This report is being published under RCW 48.02.170. As that law requires, the material appearing in the statistical tables of Section II is taken from the annual statements which the insurers themselves have filed with this Office. Thus, the publication of these tables by this Office should not be construed as a confirmation by this Office of the accuracy of any given figure.

Receiverships

H & A Associates, Inc. - Was a surplus line insurance broker based in Tacoma, with affiliated companies in Idaho, Oregon, and operations in Alaska. During 1979, the Commissioner's Office discovered this broker had undertaken the functions of an insurance company without appropriate licenses. The Washington Insurance Code provides that the Commissioner may be appointed Receiver of companies purporting to act as insurers within the state without appropriate authorization.

On December 5, 1979, the Commissioner was appointed Receiver. At that time, the records of the corporation indicated $130,964.82 in assets and $315,470.32 in liabilities.

As Receiver, the Commissioner has been marshalling the assets of the corporation and attempting to determine the validity of claims against the company.

As of July 31, 1980, assets totaled 4,301,234.46 and liabilities were $464,498.35. The increase in assets and liabilities from thefirst accounting is due, in part, to changes in reporting methods.

When claims against H & A filed by insurance companies are reconciled, a proposal for an initial distribution of assets will be filed by the Receiver.

Employee Security Benefit Association - This company was an unincorporated firm with a home office in Washington State. It was selling medical insurance throughout the nation, purportedly under the authority of the Federal Employee Retirement Security Act of 1974. They had no license from Washington or any other state. On March 8, 1978, Commissioner Marquardt was appointed Receiver of the association to wind up the company's affairs.

The association was not an authorized insurer under the Washington Insurance Code, so the state's guaranty association provisions were not applicable to the organization.

Individuals with claims for benefits could look only to the assets of the association for payment. Upon taking control of the association, the Receiver terminated coverages under the associations certificates and arranged to move certificate holders, at their option, to authorized insurance companies.

As Receiver, the Commissioner took possession of assets totaling $798,536.00. Following a petition for partial distribution of assets, the Commissioner's Office was able to pay expenses of the receivership in the amount of $71,711.36 and had an income of $6,258.42 during that period. At this time, it was determined that $538,118.22 was available for immediate distribution to former certificate holders of the association. That amount provided for a distribution of 45 percent of each claim.

Following the initial distribution to preferred creditors, the office worked to reduce the assets of the receivership to cash. In addition, as Receiver, the Commissioner's Office defended a number of suits against the receivership arising out of denied claims. Further, the Receiver pursued litigation against the previous operations of the association on certain claims thereby recovering $50,000 from those individuals.

At this point, the activity in the receivership has been reduced to defense of a single claim for benefits. As Receiver, the office is prepared to distribute the remaining assets, following certain legal procedures.

Assets available for distribution total $4,592.06, and remaining liability for unpaid claims total $744,333.52. There are no funds available for payment of any general creditor's claims.

The receiver will be able to pay about 25 percent of the remaining unpaid preferred claims. This will result in a return to priority creditors of approximately 59.5 percent of each claim. Priority creditors are those with claims for benefits or return premium.

Rainier National Life - Receivership

The company was ordered into rehabilitation April 2, 1976. On May 1, 1977, an order of Liquidation was obtained. All active policies were assumed by North Coast Life Insurance Company.

The receivership of Rainier National Life remains open pending the resolution of ownership questions involving property shown on the company books.

Federal Old Line Insurance Company - Receivership

This receivership began in December, 1966. During fiscal 1979, a number of lawsuits commenced early and the receivership continued. In February, 1978, a final judgment against Federal Old Line was entered. By 1979, that judgment amounted to some $4 million. Additionally, bankruptchy proceedings continued on another front. These proceedings blocked the distribution of some $1.2 million in secured claims which would have been paid to Federal Old Line. A settlement was entered into between the Commissioner, as Receiver, and those involved in the bankruptch suit agreed to dismiss their actions against Federal Old Line and the receivership. This settlement accelerates the distribution of funds by the bankruptch trustee to Federal Old Line creditors.

Protective American Life - Receivership

The company was placed in rehabilitation on January 9, 1979, and ordered into liquidation on November 30, 1979.

OFFICE OF THE STATE FIRE MARSHAL

ANNUAL REPORT - January 1, 1980 to December 31, 1980

During the 1980 Legislative Session, Substitute Senate Bill 3382 was passed. This bill contained several important fire and arson control measures:

- Arson control laws outlined in Section 48.48 of the Revised Code of Washington were clearly defined and strengthened.
- Uniform statewide fire incident reporting became mandatory for all fire departments within the state.
- $95,000 was appropriated to implement the uniform fire incident reporting system on statewide basis.

With the participation of 46 fire departments, providing fire protection services for one million (or 25 percent) of the State's four million population, the WA-FIRS (Washington - Fire Incident Reporting System) Pilot Program went into effect January 1, 1980. During the year, the program continued to expand. As of January 1, 1981, the program included fire departments protecting approximately three million of the State's population.

The fire experience data submitted during 1980 shows that the departments responded to a total of 6,927 fire incidents, with a dollar loss of $16.6 million.

The value of the program has been proven with the identification of fire problems and fire trends. Solid fuel heating systems have been clearly identified as a leading cause of residential fires. The substandard installation and/or improper maintenance of such devices is clearly a serious -- and growing -- fire problem within the State.

Data compiled through the WA-FIRS Pilot Program has identified another fire problem within the State of Washington -- Arson.

The pilot program departments reported a total of 2,067 fires in the categories of incendiary, suspicious, and unknown cause fires, with a dollar loss of $7.1 million.

FIRE INVESTIGATION DIVISION. The Fire Investigation Division consists of a Chief of Investigation and seven investigators. The primary responsibility of the division is the investigation of fires of suspicious, criminal or undetermined origin as reported by local fire officials, police officials or insurance adjusters. The Division also investigates fires that may involve attempts to fraudulently receive funds from an insurance company.

The Division provides assistance upon request in determining the cause of a fire and follows up on the criminal aspects of the investigation in cooperation with local law enforcement agencies and prosecuting attorneys.

The Division monitors reports of fires submitted by fire officials and insurance companies, coordinating their activities and providing notice when patterns of fraud or multiple fires appear.

The Investigation Division assists the other divisions of the office in the investigation of fires in facilities where the office has regulatory responsibilities and aids various state and federal agencies when investigative expertise is requested.

The Division maintains records on all fires investigated or reported, and provides information and/or training to fire, police or insurance officials in any phase of fire investigation, fire reporting, or related activities.

The Investigation Division administers and enforces the State Fireworks Law.

RESIDENTIAL INSPECTION DIVISION. The statutory responsibilities of the State Fire Marshal with respect to the inspection of transient accommodations (hotels, motels) and child care facilities (day care and group care) continued to be met by the Residential Inspection Division in 1980.

The Residential Inspection division continued to provide fire/life safety inspection services for the Department of Social and Health Services, pursuant to the statewide licensing program for Transient Accommodations (hotels and motels) and the broad range of child care agencies.

During calendar year 1980, the Residential Inspection Division workload reflected modest increases in the numbers of facilities subject to inspection under the respective licensing laws. Licensed child day care facilities increased slightly, and there was a slight increase in the number of mini day care facilities. Group care agencies were increased to encompass a new category of agency: "Juvenile Detention Facility."

The Residential Inspection Division started the reporting period with a full complement of five inspectors statewide. During the period, two unforeseen events resulted in staff reductions of two personnel. One of the vacancies was filled in October, 1980, which provided some measure of continued stability. Even though there were staff reductions, along with some limited disruption in inspection routine, the Residential Inspection Division was able to maintain pace with the inspection commitments.

Following is an overview of the Residential Inspection Division workload for the year ending December 31, 1980.

TYPE OF LICENSED FACILITY	STATUTORY AUTHORITY	NUMBER LICENSED	INSPECTION FREQUENCY
Transient Accommodations: Hotels, motels, resorts and condominiums offering 3 or more lodging units to transient guests. NOTE: Chapter 284-144-020(11) further states "for periods less than one month."	RCW 70.62	1276	Biennial

HEALTH CARE FACILITIES FIRE PROTECTION DIVISION. It is the responsibility of the State Fire Marshal to adopt and enforce recognized standards for protection of life against fire and fire hazards in hospitals, nursing homes, boarding homes for the aged, private establishments (psychiatric hospitals, alcoholic treatment facilities) childbirth centers, and residential treatment facilities for psychiatrically impaired children and youth.

State Fire Marshal approval of these facilities is a condition of licensing by the Department of Social and Health Services. Approval is also required for eligibility to participate in federally sponsored Medicare and Medicaid programs.

In addition to enforcement of fire protection regulations, Deputy State Fire Marshal's counsel and advise on matters of fire protection. They also conduct educational and fire and life safety training for staff personnel in the facilities as time and funding permit.

Effective fire and life safety programs must begin with the health care facilities administrator. Only when top management understands and endorses pre-planning for such emergencies will effective and continuing programs be developed. Such endorsement will assure that staff personnel can perform effectively in protecting patients from fire or other life-threatening hazards when the need arises. This is particularly important when reduced night staff personnel are responsible for the care and safety of many handicapped, non-ambulatory patients, including the very young and elderly.

STATE FIRE MARSHAL PLAN REVIEW

By interagency agreement, the State Fire Marshal provides fire protection plan review and construction inspection services to the Department of Social and Health Services for such state licensed facilities as hospitals, nursing homes, boarding homes for the aged, and alcoholic treatment facilities.

This service helps to ensure that in new and remodeled buildings the applicable state and federal codes and requirements will be met, thus eliminating nonconforming construction resulting in costly delays.

The Deputy State Fire Marshals assigned to this important function have specialized training and experience. They confer with owners, administrators, architects, and engineers in pre-design and pre-construction conferences and as needed throughout the life of the project.

They operate under the general supervision of the State Fire Marshal, but receive their assignments from the Department of Social and Health Services. These assignments are then closely coordinated with the other staff consultants in the architectural, engineering, and electrical disciplines.

Field inspections are made through the various stages of construction. Only after final approval of construction does D.S.H.S. consider the facility for licensing.

* Alcoholic Treatment Facilities

SUMMARY

The close of calendar year 1980 saw 25% of the state's population covered by uniform fire reports. These reports immediately highlighted the problem our citizens were experiencing with solid fuel heating systems - the leading accidental cause of residential fires. The reports also showed that fires of incendiary (arson), suspicious, and unknown causes contributed to 43% of the total fire problem. These statistics caused us to renew our efforts toward expanding this new program, at least doubling the number of participating departments for 1981, to determine if these alarming trends would continue.

In looking forward to 1981, the Fire Marshal's Office renewed its dedication to the legislative package submitted by the Senate Oversight Committee on Arson. The first step toward establishing a uniform fire reporting system was completed in 1980. As the Arson problem is being defined. Solutions must be designed to slow this tragic loss in terms of life and property.

The State Fire Marshal overall goal of protecting the citizens of Washington and its guests from the hazards of fire to life and property was addressed with continued efforts in 1980.
